Safety Information

Your safety and that of others are very important

This manual and the appliance itself provide important safety warnings, to be read and observed at all times.

 This is the danger symbol, pertaining to safety, which alerts users to potential risks to themselves and others.

All safety warnings are preceded by the danger symbol and the following terms:

 **DANGER!** Indicates a hazardous situation which, if not avoided, will cause serious injury.

 **WARNING!** Indicates a hazardous situation which, if not avoided, could cause serious injury.

All safety warnings give specific details of the potential risk present and indicate how to reduce risk of injury, damage and electric shock resulting from improper use of the appliance. Carefully observe the following instructions:

- The appliance must be disconnected from the power supply before carrying out any installation work.
- Electrical installation and maintenance must be carried out by a qualified technician, in compliance with the manufacturer's instructions and local safety regulations. Do not repair or replace any part of the appliance unless specifically stated in the user manual.
- Regulations require that the appliance is earthed.

- The power cable must be long enough for connecting the appliance, once fitted in its housing, to the power supply socket.
- For installation to comply with current safety regulations, an all-pole disconnect switch with minimum contact gap of 3 mm must be utilized.
- Do not use multiple plug adapters or extension leads.
- Do not pull the power supply cable in order to unplug the appliance.
- The electrical components must not be accessible to the user after installation.
- Do not touch the appliance with any wet part of the body and do not operate it when barefoot.
- This appliance is designed solely for use as a domestic appliance for cooking food. No other type of use is permitted (e.g.: heating rooms). The Manufacturer declines all responsibility for inappropriate use or incorrect setting of the controls.
- The appliance is not intended for use by persons (including children) with any physical, sensory or mental impairment, or without experience and knowledge of the appliance, unless supervised or previously instructed in its use by those responsible for their safety.
- The accessible parts of the appliance may become very hot during use. Young children should be kept away from the appliance and supervised to ensure that they do not play with it.

- During and after use, do not touch the heating elements or interior surfaces of the appliance - risk of burns. Do not allow the appliance to come into contact with cloths or other flammable materials until all the components have cooled sufficiently.
- At the end of cooking, exercise caution when opening the appliance door, letting the hot air or steam exit gradually before accessing the oven. When the appliance door is shut, hot air is vented from the aperture above the control panel. Do not obstruct the vent apertures.
- Use oven gloves to remove pans and accessories, taking care not to touch the heating elements.
- Do not place flammable materials in or near the appliance: a fire may break out if the appliance is inadvertently switched on.
- Do not heat or cook sealed jars or containers in the appliance. The pressure that builds up inside might cause the jar to explode, damaging the appliance.
- Do not use containers made of synthetic materials.
- Overheated oils and fats catch fire easily. Always remain vigilant when cooking foods rich in fat and oil.
- Never leave the appliance unattended during food drying.
- If alcoholic beverages are used when cooking foods (e.g. rum, cognac, wine), remember that alcohol evaporates at high temperatures. As a result, there is a risk that vapours released by the alcohol may catch fire upon coming into contact with the electrical heating element.

Scraping of household appliances

- This appliance is manufactured with recyclable or reusable materials. Dispose of it in accordance with local waste disposal regulations. Before scrapping, cut off the power supply cable.
- For further information on the treatment, recovery and recycling of household electrical appliances, contact your competent local authority, the collection service for household waste or the store where you purchased the appliance.

Product description

Accessories

Aluminium baking tray

1x

Wire Shelf

1x

Control panel

A Function selector knob
B Thermostat knob

C Thermostat indicator light (red)

Daily use

Switching on the oven

Turn the selector knob to the required function. The oven light switches on.

Turn the thermostat knob clockwise to the required temperature. The red thermostat

indicator light switches on; when the required cooking temperature is reached it will turn off. At the end of cooking, turn the knobs to "0".

Oven functions table

Function	Description of function
0	OVEN OFF
	LIGHT To switch on the oven light.
	BOTTOM HEATING ELEMENT To finish cooking fruit or cheese cakes or to thicken sauce. Use this function for the last 10/15 minutes of cooking time.
	STATIC To cook meat, fish and poultry in the oven. Preheat the oven to the required cooking temperature and place the food inside as soon as the red thermostat light turns off. It is advisable to use the second or third level.
	UPPER HEATING ELEMENT For browning food. Use this function for the last 10/15 minutes of cooking time.

Cleaning and maintenance

CLEANING

⚠ WARNING!

- Never use steam cleaning equipment.
- Only clean the oven when it is cool to the touch.
- Disconnect the appliance from the power supply.

Oven exterior

ⓘ IMPORTANT: do not use corrosive or abrasive detergents. If any of these products accidentally comes into contact with the appliance, clean immediately with a damp cloth.

- Clean the surfaces with a damp cloth. If it is very dirty, add a few drops of washing up detergent to the water. Finish off with a dry cloth.

Oven interior

ⓘ IMPORTANT: do not use abrasive sponges or metallic scrapers or scourers. Over time, these can ruin enamelled surface and scratch the oven door glass, which may result in shattering of the glass.

- After every use, allow the oven to cool then clean it preferably while it is still warm in order to remove built-up dirt and stains caused by food residues (e.g. food with a high sugar content).
- Use proper oven detergents and follow the manufacturer's instructions to the letter.
- Clean the door glass with a suitable liquid detergent. The oven door can be removed to facilitate cleaning (see MAINTENANCE).
- The top heating element of the grill (see MAINTENANCE) can be lowered (some models only) to clean the roof of the oven.

NOTE: during prolonged cooking of foods with a high water content (e.g. pizza, vegetables, etc.) condensation may form on the inside of the door and around the seal. When the oven is cold, dry the inside of the door with a cloth or sponge.

Accessories

- Soak the accessories in water with washing up detergent immediately after use, handling them with oven gloves if still hot.
- Food residues can be easily removed using a brush or sponge.

Cleaning the rear wall and catalytic side panels of the oven (if present):

ⓘ IMPORTANT: do not use corrosive or abrasive detergents, coarse brushes, pot scourers or oven sprays which could damage the catalytic surface and ruin its self-cleaning properties.

- Operate the oven empty with the fan assisted function at 200°C for about one hour.
- Next, leave the appliance to cool down before removing any food residue with a sponge.

MAINTENANCE

⚠ WARNING!

- Use safety gloves.
- Ensure the oven is cold before carrying out the following operations.
- Disconnect the oven from the power supply.

To remove the door

1. Open the door fully.
2. Lift the catches and push them forwards as far as they will go (Fig. 1).

Fig. 1

3. Close the door as far as it will go (A), lift it up (B) and turn it (C) until it is released (D) (Fig. 2, 3, 4).

Fig. 2

Fig. 3

Fig. 4

To refit the door

1. Insert the hinges in their seats.
2. Open the door fully.
3. Lower the two catches.
4. Close the door

To replace the rear lamp

1. Disconnect the oven from the power supply.

Fig. 8

2. Unscrew the lamp cover (Fig. 8), replace the lamp (see note for lamp type) and screw the lamp cover back on.
3. Reconnect the oven to the power supply.

NOTE:

Only use 25-40W/230V type E-14, T300°C incandescent lamps.

Lamps are available from IKEA After Sales Service.

⚠ WARNING!

Ensure that the appliance is switched off before replacing the lamp to avoid possibility of electric shock.

The user manual needs to include details indicating the correct installation of the wire shelves and accessories as per user manual Nutid OV9 "Inserting wire shelves and other accessories in the oven" section.

Inserting wire shelves and other accessories in the oven

The wire shelf and other accessories are provided with a locking mechanism to prevent their unintentional removal.

1. Insert the wire shelf horizontally, with the raised part "A" upwards (Fig. 1).

Fig. 1

2. Angle the wire shelf when it reaches the locking position "B" (Fig. 2).

Fig. 2

3. Return the wire shelf to the horizontal position and push it in fully to "C" (Fig. 3).

Fig. 3

4. To remove the wire shelf proceed in reverse order.

The other accessories, like the drip tray and baking tray, are inserted in exactly the same way. The protrusion on the flat surface enables the accessories to lock in place.

What to do if ...

Problem	Possible cause	Solution
The oven does not work.	No presence of mains electrical power.	Verify the presence of mains electrical power.
	The oven is not connected to the electrical supply.	Connect the oven to the power supply.
	'The oven selector is turned to "0".	Turn the oven selector and select a cooking function.
	The oven selector is turned to "∅".	Turn the oven selector and select a cooking function.
The door is locked and will not release.	Electronic malfunction due to voltage variations.	Turn off the oven and restart it to see if the fault persists.
The electronic programmer does not work.	Electronic malfunction due to voltage variations.	If the electronic programmer (depending on the model) presents the message "F HH", contact the nearest After Sales Service. Specify in this case the number that follows the letter "F".

Before calling the After-Sales Service:

1. See if you can solve the problem yourself with the help of the suggestions given in the "What to do if ..." table.
2. Switch the appliance off and back on again it to see if the fault persists.

If after the above checks the fault still occurs, contact IKEA After Sales Service.

Always specify:

- a brief description of the fault;
- the type and exact model of the oven;
- the service number (number after the word Service on the rating plate), located on the right hand edge of the oven cavity (visible when the oven door is open);

SERVICE 0000 000 00000

- your full address;
- your telephone number.

If any repairs are required, please contact IKEA After Sales Service (to guarantee that original spare parts will be used and repairs carried out correctly).

Cooling fan W	25
Oven lamp W	25
Total rating W	2100
Number of functions	3
Energy consumption kWh	0.79

The technical informations are situated in the rating plate inside the appliance.

Installation

After unpacking the oven, make sure that it has not been damaged during transport and that the oven door closes properly. In the event of problems, contact the dealer or your nearest After-sales Service. To prevent any damage, only remove the oven from its polystyrene foam base at the time of installation.

Preparing the housing unit

- Kitchen units in contact with the oven must be heat resistant (min 90°C).
- Carry out all cabinet cutting work before fitting the oven in the housing and remove all wood chips and sawdust.
- After installation, the bottom of the oven must no longer be accessible.
- For correct appliance operation, do not obstruct the minimum gap between the worktop and the upper edge of the oven.

General recommendations

Before use

- Remove cardboard protection pieces, protective film and adhesive labels from accessories.
- Remove the accessories from the oven and heat it at 200° for about an hour to eliminate the smell and fumes from the insulating materials and protective grease.

During use

- Do not place heavy objects on the door as they could damage it.
- Do not cling to the door or hang anything from the handle.
- Do not cover the inside of the oven with aluminium foil.
- Never pour water into the inside of a hot oven; this could damage the enamel coating.
- Never drag pots or pans across the bottom of the oven as this could damage the enamel coating.
- Make sure that the electrical cables of other appliances do not touch hot parts of the oven or become trapped in the door.
- Do not expose the oven to atmospheric agents.

Door lock device

To open the door with the door safety device see Fig 1.

Fig. 1

The door safety device can be removed by following the sequence of images (see Fig. 2).

Fig. 2

Electrical connection

Make sure the power voltage specified on the appliance rating plate is the same as the mains voltage. The rating plate is on the front edge of the oven (visible when the door is open).

Power cable replacement (type H05 RR-F 3 x 1,5 mm²) must be carried out by a qualified electrician. Contact IKEA After Sales Service.

If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

Environmental concerns

Disposal of packing material

- The packing material is 100% recyclable and is marked with the recycle symbol (♻). The various parts of the packing must therefore be disposed of responsibly and in full compliance with local authority regulations governing waste disposal.

Scrapping the product

- This appliance is marked in compliance with European Directive 2002/96/EC, Waste Electrical and Electronic Equipment (WEEE).
- By ensuring this product is disposed of correctly, you will help prevent potential negative consequences for the environment and human health, which could otherwise be caused by inappropriate waste handling of this product.

- The symbol ■ on the product or on the accompanying documentation indicates that it should not be treated as domestic waste but must be taken to an appropriate collection centre for the recycling of electrical and electronic equipment.

Energy saving

- Only pre-heat the oven if specified in the cooking table or your recipe.
- Use dark lacquered or enamelled baking moulds as they absorb heat far better.
- Switch the oven off 10/15 minutes before the set cooking time. Food requiring prolonged cooking will continue to cook even once the oven is switched off.

Declaration of conformity CE

- This oven, which is intended to come into contact with foodstuffs, complies with European Regulation (CE) n. 1935/2004 and has been designed, manufactured and sold in conformity with the safety requirements of the "Low Voltage" directive 2006/95/CE (which replaces 73/23/CEE and subsequent amendments), the protection requirements of "EMC" 2004/108/CE.

IKEA GUARANTEE

How long is the IKEA guarantee valid?

This guarantee is valid for five (5) years from the original date of purchase of your appliance at IKEA, unless the appliance is named LAGAN in which case two (2) years of guarantee apply. The original sales receipt, is required as proof of purchase. If service work is carried out under guarantee, this will not extend the guarantee period for the appliance.

Which appliances are not covered by the IKEA five (5) years guarantee?

The range of appliances named LAGAN .

Who will execute the service?

IKEA has appointed Whirlpool (Australia) Pty Ltd as the authorised service network partner.

- If you encounter any trouble with the appliance and wish to register a call with Whirlpool, please call:

Australia contact centre:
1300 363 344.

What does this guarantee cover?

The guarantee covers applicable faults of the appliance, as per the terms and conditions, from the date of purchase from IKEA. This guarantee applies to domestic use only. The exceptions are specified under the headline "What is not covered under this guarantee?" Within the guarantee period, the costs to remedy the fault e.g. repairs, parts, labour and travel will be covered, provided that the appliance is accessible for repair without special expenditure. Replaced parts become the property of IKEA.

The services will be in-home service for domestic appliances, and must to be done by official Whirlpool service network.

Goods presented for repair may be replaced by refurbished goods of the same type rather than being repaired.

Refurbished parts may be used to repair the goods.

If the authorized service agent requests you to deliver the product directly to them, please ensure that the appliance is suitably packaged to prevent any damage during transportation.

What will IKEA do to correct the problem?

IKEA appointed service provider will examine the product and decide, at its sole discretion, if it is covered under this guarantee. If considered covered, IKEA service provider or its authorized service partner through its own service operations, will then, at its sole discretion, either repair the defective product or replace it with the same or a comparable product.

What is not covered under this guarantee?

- Normal wear and tear.
- Deliberate or negligent damage, damage caused by failure to observe operating and maintenance instructions, incorrect installation or by connection to the wrong voltage, damage caused by chemical or electrochemical reaction, rust, abrasion or scratching, corrosion or water damage including but not limited to damage caused by excessive lime in the water supply, damage caused by abnormal environmental conditions.
- Damage caused from the use of the appliance in a manner other than the use for which it was specifically designed.
- Damage caused by power outages, electrical power surge or improper supply voltage via connection to Supply Authority mains or alternative supply systems.
- Consumable parts including batteries and lamps, removable wire, glass and plastic trays and other accessories.

- Internal or external damage as a result of excessive use of cleaning products or cleaning agents.
- Non-functional and decorative parts which do not affect normal use of the appliance, including any scratches and possible color differences.
- Accidental damage or blockages caused by foreign objects, eg. coins, underwires, nails, buttons or jewellery, or substances and cleaning or unblocking of filters, drainage systems or soap drawers
- Damage caused by vermin, insects or pets.
- Note – internal or external cabinet transport damage must be reported within 7 days of purchase date.
- Damage to the following parts: ceramic glass, accessories, crockery and cutlery baskets, feed and drainage pipes, seals, lamps and lamp covers, screens, knobs, casings and parts of casings. Unless such damages can be proved to have been caused by production faults.
- Cases where no fault could be found during a technician's visit.
- Any consequential loss due to appliance failure.
- Repairs not carried out by our appointed service providers and/or an authorized service contractual partner or where non original parts have been used.
- Repairs to parts or systems caused by unauthorized modifications made to appliance.
- Repairs caused by installation which is faulty or not according to specification.
- Problems caused by incorrect or inadequate venting of the appliance.
- The use of the appliance in a non domestic environment i.e. professional use.
- Transportation damages. If a customer transports the product to his home or another address, IKEA is not liable for

any damage that may occur during transport.

However, if IKEA delivers the product to the customer's delivery address, then damage to the product that occurs during this delivery will be covered by IKEA.

- Cost for carrying out the initial installation of the IKEA appliance. However, if an IKEA appointed service provider or its authorized service partner repairs or replaces the appliance under the terms of this guarantee, the appointed service provider or its authorized service partner will reinstall the repaired appliance or install the replacement, if necessary.
- The benefits conferred by this express warranty are in addition to all other conditions, warranties, guarantees, rights and remedies expressed or implied by the Trade Practices Act and similar State and Territory laws and all other obligations and liabilities on the part of the manufacturer or supplier and nothing contained herein shall restrict or modify such rights, remedies, obligations or liabilities.

How country law applies?

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law.

You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage.

You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

Area of validity

The IKEA guarantee applies only to products purchased and installed in AUSTRALIA .

The dedicated AFTER SALES for IKEA appliances

Please don't hesitate to contact IKEA appointed After Sales Service Provider to:

- make a service request under this guarantee;
- ask for clarifications on installation of the IKEA appliance in the dedicated IKEA kitchen furniture;
- ask for clarification on functions of IKEA appliances.
- Call our authorized service network partner Whirlpool on **1300 363 344 (Australia)**.

WARRANTY PROCEDURE

Please ensure that installation procedure entailed in the user manual has been adhered to and in case of any doubts please refer to the trouble shooting guide that has been supplied with the appliance.

- Please read the user guide to ensure that you are aware of all the features & benefits of the appliance.

How to reach if you need our service

The Whirlpool call centre team will assist you on the phone with basic trouble shooting for your appliance at the time of warranty call registration.

1300 363 344

Please describe the problem that you are facing with the appliance in detail along with your product model number, serial number, date of purchase at the time of call registration.

Please also always refer to the IKEA article number (8 digit code) and 12 digit service number placed on the rating plate of your appliance.

SAVE THE SALES RECEIPT!

Kindly keep all these details and original invoice of purchase handy during the service technician's visit to enable him to carry out the job.

Whirlpool reserves the right not to register the call under warranty if you fail to provide these details at the time of call registration.

Do you need extra help?

For any additional questions not related to After Sales of your appliances please contact your nearest IKEA store call centre. We recommend you read the appliance documentation carefully before contacting us.

For details on service agents locations, please visit – www.whirlpool.com.au/services.
